

# RAMLEIGH PARK PRIMARY SCHOOL

## PROTECT CHILD SAFETY RISK REGISTER

School: Ramleigh Park Primary School

---

Responsible staff member: Principal

---

Approved by school principal: Linda Corcoran

---

Register name: Child safety risk register

---

Date reviewed: August 2020

Next review due: August 2021

This Child Safety Risk Register will be reviewed annually or in response to an event.

---

Location(s): Ramleigh Park Primary School 345 Thoroughbred Drive, Clyde North 3978

---

Ramleigh Park Primary School has zero tolerance for child abuse. We are committed to providing a child safe environment where children and young people are safe and feel safe, and their voices are heard about decisions that affect their lives. Our child safe policies, procedures, strategies and practices will be inclusive of the needs of all children, particularly Aboriginal and Torres Strait Islander children, children from culturally and linguistically diverse backgrounds, children with disabilities, and children who are vulnerable.

The new school is located adjacent to an ELC and backs on to a football ground and the school is in a high growth area. Students are likely to be driven to school or walk. Student enrolments will include members of CALD communities from the local area. An OSHC will be on site.

Student numbers will increase rapidly over a few years, requiring continuing recruitment of new staff and regular review of child safety risk management strategies to ensure they meet students' needs as the school community grows.

Students will attend programs off site in community such as swimming lessons, excursions and camps. Community groups will be on site during school hours, such as parent groups. Students will have access to additional support onsite from a school counsellor.

Risk Title & Description	Risk Causes & Consequences	Existing risk management strategies (existing controls)	Current Risk Assessment			New risk management strategies (treatments)	Who is responsible?	Date of new risk management strategies (treatments)
			Current Risk Consequence <i>How big would the impact of this risk be if it occurred? (choose one)</i>	Current Risk Likelihood <i>How likely is this risk to occur? (choose one)</i>	Current Risk Rating <i>What is the current risk level based on the risk rating matrix (below, page 9)?</i>			
Define the risk including a title and a short description <i>What can go wrong?</i>	Describe the risk cause/s and consequence/s <i>What would cause it to go wrong? (causes)</i> <i>What are the impacts if it does go wrong? (consequences)</i>	Describe any existing policy, procedure, practice or device that acts to minimise the risk <i>What is in place now that reduces the likelihood of this risk occurring or its impact if it did occur?</i>				Describe the actions to be undertaken for those risks requiring further treatments	List who is responsible for each new treatment (noting that the principal is ultimately responsible)	The date the treatment action should be completed by

# DET Risk Process

Risk can be described as anything; event, practice, process, activity, etc. that could hinder or help achievement of stated goals or objectives.

## DET Risk Management Framework -

**Consequence Criteria:** This guide provides indicative terms against which the significance of risk is evaluated.

Descriptor	Student Outcomes	Wellbeing and Safety	Finance	Reputation	Operations	Strategic
Insignificant	<ul style="list-style-type: none"> <li>Educational outcomes, engagement and wellbeing and pathways and transitions can be met with workarounds</li> </ul>	<ul style="list-style-type: none"> <li>Minor injury requiring no first aid or peer support for stress / trauma event</li> </ul>	<ul style="list-style-type: none"> <li>Small loss that can be absorbed</li> </ul>	<ul style="list-style-type: none"> <li>Internal impact (no external impact)</li> </ul>	<ul style="list-style-type: none"> <li>School operations continue with slight interruptions to normal activities</li> </ul>	<ul style="list-style-type: none"> <li>Goals, targets and key improvement strategies can be delivered with inconsequential impacts</li> </ul>
Minor	<ul style="list-style-type: none"> <li>Educational outcomes, engagement and wellbeing and pathways and transitions achieved but below targets</li> </ul>	<ul style="list-style-type: none"> <li>Injury / ill health requiring first aid</li> <li>Peer support for stress / trauma event</li> </ul>	<ul style="list-style-type: none"> <li>Loss of 'consumable' assets,</li> <li>&lt; 2% deviation from budget</li> <li>Minor fraud possible</li> </ul>	<ul style="list-style-type: none"> <li>Adverse comments local community media</li> <li>Short term stakeholder dissatisfaction / comment</li> </ul>	<ul style="list-style-type: none"> <li>Some school operations disrupted</li> <li>Minor workarounds return school to normal operations</li> </ul>	<ul style="list-style-type: none"> <li>Minor workaround need to be implemented to deliver the SSP goals, targets and key improvement strategies</li> </ul>
Moderate	<ul style="list-style-type: none"> <li>Students' overall levels of Literacy and Numeracy static</li> <li>Increasing truancy</li> <li>Partial achievement of targeted pathways and transition</li> </ul>	<ul style="list-style-type: none"> <li>Injury / ill health requiring medical attention</li> <li>Stress / trauma event requiring professional support</li> </ul>	<ul style="list-style-type: none"> <li>Loss of assets</li> <li>2% - 5% deviation from budget</li> <li>External audit management letter</li> </ul>	<ul style="list-style-type: none"> <li>External scrutiny e.g. VAGO</li> <li>Adverse state media comment</li> <li>Stakeholder relationship impacted</li> </ul>	<ul style="list-style-type: none"> <li>Key school operations temporarily disrupted</li> <li>School leadership team meets to return school to normal operations</li> </ul>	<ul style="list-style-type: none"> <li>Constant consultation with key stakeholders needs to be maintained to deliver the SSP goals, targets and key improvement strategies</li> </ul>
Major	<ul style="list-style-type: none"> <li>National targeted improvements not achieved</li> <li>Partial achievement of targeted learning outcomes</li> <li>Student dissatisfaction with access to pathways / transitions</li> </ul>	<ul style="list-style-type: none"> <li>Injury / ill health requiring hospital admission</li> <li>Stress / trauma event requiring ongoing clinical support</li> </ul>	<ul style="list-style-type: none"> <li>Loss of significant assets</li> <li>6% - 15% deviation from budget</li> <li>External audit qualification on accounts</li> <li>High end fraud committed</li> </ul>	<ul style="list-style-type: none"> <li>External investigation</li> <li>Adverse comments national media</li> <li>Stakeholder relationship tenuous</li> </ul>	<ul style="list-style-type: none"> <li>Whole of school operations disrupted</li> <li>Assistance sought from Regional Office</li> </ul>	<ul style="list-style-type: none"> <li>Significant adjustment to resource allocation and service delivery required to deliver SSP goals, targets and key improvement strategies</li> </ul>
Severe	<ul style="list-style-type: none"> <li>Literacy and Numeracy decline</li> <li>Student engagement and connectedness to the school and their peers is very poor</li> <li>Declining number of student options for pathways and transitions</li> </ul>	<ul style="list-style-type: none"> <li>Fatality or permanent disability</li> <li>Stress / trauma event requiring extensive clinical support for multiple individuals</li> </ul>	<ul style="list-style-type: none"> <li>Loss of key assets</li> <li>&gt;15 % deviation from budget</li> <li>Systemic and high value fraud</li> </ul>	<ul style="list-style-type: none"> <li>Commission of inquiry</li> <li>National front page headlines</li> <li>Stakeholder relationship irretrievably damaged</li> </ul>	<ul style="list-style-type: none"> <li>Normal school operations cease</li> <li>School evacuated</li> <li>Regional Office notified</li> </ul>	<ul style="list-style-type: none"> <li>SSP goals, targets and key improvement strategies cannot be delivered</li> <li>Changes need to be made to the SSP</li> </ul>

**Likelihood Criteria:** This guide provides the indicative terms against which the probability of a risk event occurrence is evaluated.

Descriptor	Description	Indicative %	Indicative Frequency	
Almost Certain	Expected to occur	>95%	Multiple times in the next year	Note: 1. <i>The Likelihood Criteria refers to the likelihood of the consequence descriptor you have selected i.e. the likelihood of a 'major' consequence.</i> 2. <i>The Indicative Frequency may not be relevant when assessing risks related to repeated activities, or when objectives are to be delivered over discrete periods of time. It should not be the sole basis for assessment.</i>
Likely	Probably will occur (no surprise)	66-95%	At least once in the next year	
Possible	May occur at some stage	26-65%	Once in the next 3 years	
Unlikely	Would be surprising if it occurred	5-25%	Once in the next 5 years	
Rare	May never occur	<5%	Once in the next 10 years	

**DET's Control Effectiveness:** Indicates the self-assessment of control effectiveness.

Controls Effectiveness Rating and Criteria	
<b>Ineffective</b>	<ul style="list-style-type: none"> <li>The design of controls overall, is ineffective in addressing key causes and/or consequences.</li> <li>Documentation and/or communication of the controls does not exist (e.g. policies, procedures, etc.).</li> <li>The controls are not in operation or have not yet been implemented.</li> </ul>
<b>Needs Improvement</b>	<ul style="list-style-type: none"> <li>The design of controls only partially addresses key causes and/or consequences.</li> <li>Documentation and/or communication of the controls (e.g. policies, procedures, etc.) are incomplete, unclear or inconsistent.</li> <li>The controls are not operating consistently and/or effectively and have not been implemented in full.</li> </ul>
<b>Acceptable</b>	<ul style="list-style-type: none"> <li>The design of controls is largely adequate and effective in addressing key causes and/or consequences.</li> <li>The controls (e.g. policies, procedures, etc.) have been formally documented but not proactively communicated to relevant stakeholders.</li> <li>The controls are largely operating in a satisfactory manner and are providing some level of assurance.</li> </ul>
<b>Effective</b>	<ul style="list-style-type: none"> <li>The design of controls is adequate and effective in addressing the key causes and/or consequences.</li> <li>The controls (e.g. policies, procedures, etc.) have been formally documented and proactively communicated to relevant stakeholders.</li> <li>The controls overall, are operating effectively so as to manage the risk.</li> </ul>

DET's Risk Rating Matrix: Used to combine consequence with likelihood to determine the overall level of risk.

Risk Rating Matrix		Consequence				
		Insignificant	Minor	Moderate	Major	Severe
Likelihood	Almost Certain	Medium	High	Extreme	Extreme	Extreme
	Likely	Medium	Medium	High	Extreme	Extreme
	Possible	Low	Medium	Medium	High	Extreme
	Unlikely	Low	Low	Medium	Medium	High
	Rare	Low	Low	Low	Medium	Medium

DET's Acceptability Chart: Used to decide whether the risk is acceptable, based on the rating calculated.

<b>Extreme = Unacceptable</b> (must have Principal / School Council / Regional Office oversight)	Immediately consider whether the activity associated with this risk should cease. Any decision to continue exposure to this level of risk should be made at Principal / School Council / Regional Office level, be subject to the development of detailed treatments, on-going oversight and high level review.
<b>High = Tolerable</b> (with ongoing Principal Class Officer review)	Risk should be reduced by developing treatments. It should be subject to on-going review to ensure controls remain effective, and the benefits balance against the risk. Escalation of this level of risk to Principal Class Officer level should occur.
<b>Medium = Tolerable</b> (with frequent risk owner review)	Exposure to the risk may continue, provided it has been appropriately assessed and has been managed to as low as reasonably practicable. It should be subject to frequent review to ensure the risk analysis remains valid and the controls effective. Treatments to reduce the risk can be considered.
<b>Low = Acceptable</b> (with periodic review)	Exposure to this risk is acceptable, but is subject to periodic review to ensure it does not increase and current control effectiveness does not vary.
